Doug - Attached are preliminary red flag comments on the BDCP Effects Analysis from NMFS and Reclamation. Note that these comments are preliminary, and the agencies anticipate that they will be revised, refined and/or reissued by the end of the month. FWS will provide their comments separately, likely fairly soon.

I am not including comments from DFG, but by copy of this message suggesting that they may send you their comments directly.

David

Subject: Copy of BDCP red flags document?

Hi David,

I understand from several sources that the state and federal fishery agencies have prepared a written list of so-called "red flag" issues with the BDCP effects analysis. I believe this has document been shared with state agencies and possibly others. Would you please share a copy of this document (or documents, if there are more than 1) with us?

Thanks,
Doug
